USING THE MUCK.

The Morning Journal today gives notice to the Republicans of this territory that the time honored methods are to be pursued in the impending state election.

The morning paper has gone in with the Democrats in an attempt to disrupt the Republican party in Herkimer county and announces in a veiled threat that if it is not allowed to dictate the entire program to the party in New Mexico it will fight in the lines of rule or ruin.

From President Taft to the smallest office holder in the Republican party in New Mexico the Morning Journal at some time or other has hurled abuse and slander.

It has tried to ruin every Republican who has undertaken to lead the party in the territory or in the county, and it has not stopped at the methods adopted.

It is no surprise that these again are to be its tactics in the coming contest. In fact that this would be its policy already has been discounted by those having the party good at heart.

It has masqueraded under the sheepskin of a defender of the people, whereas the people after each campaign have quickly discovered the tang of the wolf.

Using Mr. Gillenwater, who was unceremoniously dumped out of the chairmanship and the committee by the Republicans of this county a short time ago, the morning paper has attempted to put forth a call for a meeting of the "committee."

It has as much authority to issue such a call as has Mr. Gillenwater, and neither of them have any authority.

The one sole aim of the whole procedure is to divert to the Democratic party any influence they may have and to create an impression that the Republicans of the county are not together in the coming campaign.

For the information of the public, it may be stated right here that the Republicans of this county do not recognize the Morning Journal as a Republican newspaper nor Mr. Gillenwater as a Republican leader.

The Republican central committee of this county will assemble at the proper time under a notice given in plenty of time for it to assemble, by its chairman, Judge Edward A. Mann.

Until that time the morning organ and its impromptu chairman may hold all the meetings they can get together, issue all the calls they can write and do most anything else they choose, without having the slightest effect on the party in this county or in the territory.

They may continue to truckle to their Democratic allies for all they are worth and take such comfort out of the procedure as they get, but by the old-time methods of slander, abuse and insult they can not injure the party nor aid themselves.

The Republican leaders in this county and in the territory will conduct the party affairs entirely independently of the Morning Aerobat and its little coterie of disappointed bosses. They will do what they believe best for the interests of the party at any and all times. The men who have been the most vilified and abused by the morning organ are the strongest men in the party today, and they are well aware that once again they must maintain their positions and the party in the face of every unpunished resource the morning paper can bring into play.

The morning organ announces that the "committee" will arrange for primaries and the election of delegates to the state convention, despite the fact that Governor Mills has not issued a proclamation for a state election, the Republican territorial committee has not apportioned the delegates for the various counties and has as yet taken no action for a campaign. At the time the call was published the president had not even signed the bill.

The morning paper and its little clique of Democratic supporters believe that by these tactics they can breed dissension in the party in this county and strike fear into the hearts of party leaders in the territory.

They have made a blit this time that has been called in advance. They can howl and bemoan all they please, berate, vilify and abuse, but in the end they will have left to them the Democratic party and what consolation they can get out of it.

So far as the call for a meeting of the county central committee by Mr. Gillenwater is concerned, there will

be no meeting of that committee. The Republican committee has discarded Mr. Gillenwater, and the sooner he avulses to the fact the less steam he will lose in trying to rule the herd again.

THE PRESIDENT SIGNS.

President Taft this afternoon signed the statehood resolution admitting New Mexico and Arizona to the union. This is the final chapter in the long battle and all that remains now is to carry out the provisions of the enabling act by organizing a state government.

It is greatly to be desired that both parties place in nomination for state and county offices the very best men within their ranks. By so doing the first state officials of this great new state will be competent to meet the work of development and progress which is bound to come at once.

The only condition attaching to New Mexico's entrance into the union is that she must vote upon an easier method of amending her constitution. This, however, will not be an issue in the first state election. It is a matter of the personal views of the voters and party lines can not be drawn upon it.

So far as amending the constitution is concerned, if there is a desire to make it easier it will be indicated at the polls. If the sentiment is opposed to changing that clause in the constitution it will doubtless make itself felt in the ballot. It is well, however, for everyone voting on this question to give it serious consideration.

There are provisions in the constitution which were put there by the workingmen, by the railroad men, by various other classes as well as by corporate interests. These features were the result of compromises and agreements among the delegates who made up the convention. It is admittedly just as easy for the corporations to take advantage of any easier amendment clause as it is for the workingmen, the railroad employees or any other class. Therefore, the question of amending the constitution is a two-edged sword that can cut either way, and it deserves careful attention on the part of all voters before it is decided.

Further than that, it is of no moment in the present situation.

ONLY THE NAME.

Americans look with horror on the bold fight. Prize fighting is permitted in a few states only.

In Chicago last Tuesday afternoon 26,000 people saw an aviator crushed to death by his machine. They watched the sport two hours more until another one fell to his death.

Unhurt by the killing of two fliers and defaced by a dangerous wind, many of the aviators protested against going up the next day, Wednesday. They warned the contest committee that the aeroplane could not be controlled in the half gate that prevailed.

But two men had been killed the day before. A big crowd was expected. The judges were insistent. Finally a half dozen aviators went up. The half gate made the chances good that the crowd would see some man fall a thousand feet. The telegraph tells how near the audience came to a realization of the flight.

"Arthur Stone, driver of a Queen monoplane, was snatched from death in Lake Michigan after hopes for his life had been given up.

Howard Goo, in a baby Wright, came almost as close to death, but escaped from under the wreck of the machine uninjured.

Until that time the morning organ and its impromptu chairman may hold all the meetings they can get together, issue all the calls they can write and do most anything else they choose, without having the slightest effect on the party in this county or in the territory.

They may continue to truckle to their Democratic allies for all they are worth and take such comfort out of the procedure as they get, but by the old-time methods of slander, abuse and insult they can not injure the party nor aid themselves.

The Republicans of this county will conduct the party affairs entirely independently of the Morning Aerobat and its little coterie of disappointed bosses.

They will do what they believe best for the interests of the party at any and all times. The men who have been the most vilified and abused by the morning organ are the strongest men in the party today, and they are well aware that once again they must maintain their positions and the party in the face of every unpunished resource the morning paper can bring into play.

The morning organ announces that the "committee" will arrange for primaries and the election of delegates to the state convention, despite the fact that Governor Mills has not issued a proclamation for a state election, the Republican territorial committee has not apportioned the delegates for the various counties and has as yet taken no action for a campaign. At the time the call was published the president had not even signed the bill.
